Experience

-
- Software Developer**, Design Resources Inc. – Overland Park, KS March 2026 – Present
- Architected PowerShell automation integrations between SAP Business One, Wrike, and EDI platforms, reducing manual processing overhead and improving cross-system data consistency.
 - Developed SQL Server stored procedures and SSRS reports for Nike Promo/DPOM workflows, resolving complex filtering and data accuracy issues.
 - Built REST API integration scripts in PowerShell and JavaScript for Wrike, Gnosis, and Orange Logic DAM, significantly reducing API call volume through batching optimizations.
 - Engineered Wrike task automation systems using PowerShell and C#, including auto-assignee sync, store transition workflows, and IIT integrations, streamlining project management pipelines.
 - Maintained and extended Angular/TypeScript and C#/ASP.NET applications with full-stack fixes and enhancements across frontend and backend layers.
- Application Support Analyst**, Design Resources Inc. – Overland Park, KS April 2025 – March 2026
- Supported enterprise data platforms with emphasis on integration stability and system resilience.
 - Improved performance through diagnostic analysis of recurring issues and collaboration with internal teams and vendors.
 - Built targeted PowerShell utilities to capture logs, analyze failure patterns, and accelerate resolution of integration issues.
- Product Support Analyst**, Flint Hills Resources – Wichita, KS March 2024 – March 2025
- Troubleshoot complex data systems and integrations to maintain reliability and operational uptime.
 - Identified and corrected upstream/downstream data mismatches, stabilizing high-volume operational pipelines and reducing recurring failures.
- Tier I Support Engineer**, ChannelMix – Kansas City, MO May 2023 – January 2024
- Served as the initial technical contact, resolving client issues efficiently across data and reporting platforms.
 - Classified issues and analyzed logs to route complex API and data failures with complete diagnostic context for engineering teams.

Education

Louisiana State University of Alexandria – BS in Business Administration | Information Systems 2025

Certificates

Kansas University – Full Stack Web Development 2023

Amazon Web Services – Cloud Practitioner 2024

Volunteer Experience

Juvenile Diabetes Research Foundation 2005 – Present

Skills

Languages & Frameworks: Angular | Bootstrap | C#/.NET | Express | JavaScript | Python | React | SASS | TypeScript
Databases & Reporting: Bizweaver | EDI | MongoDB | SQL (T-SQL) | SQL Server | SSRS
Cloud & Integration: AWS | Azure | Git | PowerShell | REST API Integration | SAP B1 | Postman | API Testing
